THE following revised draft of a Notification, which it is proposed to issue in exercise of the powers conferred by section 4, sub-section (1), of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Governor General in Council on or after the 1st June 1900.

“6. Application of the test to viscous fluids or preparations; such as solutions of India-rubber in mineral naphtha, or thick paint made with that material:—

About a teaspoonful of the substance to be tested is placed in the cup, and the cover fitted with a thermometer is put on.

The cup thus prepared for the test is then cooled down until the thermometer indicates a temperature of 50° F. This may be accomplished either by placing the prepared cup in a refrigerator, or by immersing it up to its projecting collar in water, which is maintained at a sufficiently low temperature until the result specified has been obtained.

The prepared cup thus cooled is then transferred to the water bath, the temperature of which has previously been raised to 76° F. (The scale of the thermometer in the water bath should range from 60° to 180° F.)

The test is then applied as described in section 4 of this part. If no flash has taken place when the temperature in the cup has reached 75° the test need not be continued.

The temperature at which the flash occurs is the observed flashing point of the substance and, subject to correction of atmospheric pressure as prescribed in the Act, is the true flashing point."

SANITARY MARITIME ORDINANCE, No. 8.

The Minister of the Interior:—

With a view to according to Navigation and Commerce all the facilities compatible with the exigencies of the sanitary service, and especially with the object of avoiding delay in the admission to free pratique of steamers, which, though having a clean bill of health, have to undergo the doctor's visit and disinfection for the sole reason that they come from ports infected with bubonic plague;

With reference to Law No. 5849 (Series 3A) of December 22nd, 1888, on the protection of public health and hygiene;

DECREES:

Article 1.

On steamers coming from places which are declared to be infected with bubonic plague and bound for Italian ports, a doctor will be embarked, nominated, as occasion arises, by this Ministry, when a formal request is made by the various owners and captains.

Article 2.

The said doctor is charged with the general supervision on board during the passage and, during the twenty-four hours which precede the arrival of the steamer in an Italian port, he must satisfy himself that the disinfection of soiled objects of personal and domestic use has been carried out, and he will proceed to medically examine all the persons on board.

Article 3.

He is further bound, on the arrival of the steamer, to present to the Port Authorities his written declaration indicating the hygienic and sanitary conditions on board as well as any steps in the way of treatment that should be taken. Should everything be declared to be in perfect order, the steamer, in respect of its sanitary condition, will be forthwith admitted to free pratique: if, on the other hand, anything abnormal is reported on board, the steamer will be submitted to such measures as are prescribed for various cases by the Sanitary Maritime Ordinances at present in force.

NOTIFICATION—By the Government of India, Home Department.

THE following revised draft of a Notification, which it is proposed to issue in exercise of the powers conferred by section 4, sub-section (1), of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Governor General in Council on or after the 1st June 1900.

DRAFT NOTIFICATION.

In exercise of the power conferred by section 4, sub-section (1), of the Petroleum Act, 1899 (VIII of 1899), the Governor General in Council is pleased to direct that the following addition be made to Part III of the first schedule to the said Act:—

“6. Application of the test to viscous fluids or preparations, such as solutions of India-rubber in mineral naphtha, or thick paint made with that material:—

About a teaspoonful of the substance to be tested is placed in the cup, and the cover fitted with a thermometer is put on.

The cup thus prepared for the test is then cooled down until the thermometer indicates a temperature of 50° F. This may be accomplished either by placing the prepared cup in a refrigerator, or by immersing it up to its projecting collar in water, which is maintained at a sufficiently low temperature until the result specified has been obtained.

The prepared cup thus cooled is then transferred to the water bath, the temperature of which has previously been raised to 76° F. (The scale of the thermometer in the water bath should range from 60° to 180° F.)

The test is then applied as described in section 4 of this part. If no flash has taken place when the temperature in the cup has reached 75° the test need not be continued.

The temperature at which the flash occurs is the observed flashing point of the substance and, subject to correction of atmospheric pressure as prescribed in the Act, is the true flashing point.”

For admission to this class, an applicant must have one of the following qualifications:—

- (i) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.
- (ii) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.
- (iii) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (ii) and (iii) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 6th May 1900, together with a registration fee of Rs. 1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next, but there will be sixteen on the reduced* fee list. For natives there will be at least eight vacancies, possibly more, on the reduced† fee list.

With the exception of students on the free and reduced fee lists, all apprentices will pay a tuition fee of Rs. 3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

RULES FOR THE ADMINISTRATION OF THE CHITTAGONG HILL TRACTS.

ADMINISTRATION OF CIVIL JUSTICE.

The administration of civil justice shall be conducted in the most simple and expeditious manner compatible with the equitable disposal of the matters or suits.

2. The officer dealing with the matter or suit will, in the first instance, endeavour, upon the *viva voce* examination of the parties, to make a just award between them. Witnesses should not be sent for, except when the officer is unable without them to come to a decision upon the facts of the case.

3. The record shall contain the following particulars, namely, the name of the plaintiff, the name of the defendant, the nature of the claim or other matter in litigation, an abstract of the plaintiff's case, an abstract of the defendant's case, an abstract of the depositions of the witnesses (where witnesses are examined), the grounds of the decision, and the order signed and dated.

4. Court fees shall not be levied in any matter or suit.

5. For the service of processes fees shall be payable at the rate of six annas per diem, according to the number of days the journey taken from the nearest police station.

6. In the issue and enforcing of processes and the execution of decrees, the officers shall be guided, as far as may be, by the provisions of the Code of Civil Procedure.

In the case of processes and decrees received from Courts of other districts, the following rules shall be observed:—

(1) The Superintendent shall serve all processes and execute all decrees which are sent to him for service or execution by Civil Courts outside the Chittagong Hill Tracts Courts, and which are accompanied —

- (a) by an English letter explaining, in the case of a process, the nature of the suit, and forwarding, in the case of a decree, a copy of the judgment; and
- (b) by the fees prescribed by the High Court.

(2) In any case in which, owing to boat-hire or the carriage of rations or similar causes, the cost of service or execution will exceed the fees received, the Superintendent will stay service and will state the cost to the Civil Court concerned, and request that the requisite amount be forwarded.

(3) In any case in which the Superintendent finds that the process should not be served, or that the decree should not be executed, he will record his reasons for so finding, and will at once forward them to the Civil Court concerned, and will retain the process or decree and fees till final orders are passed.

(4) In either of the cases provided for by rules (2) and (3), the Civil Court concerned may refer the Superintendent's orders directly to the Commissioner of Chittagong, and the Commissioner shall pass orders on such reference and communicate them directly to the Civil Court concerned. If any Civil Court desires to make a reference from the Commissioner's orders, such reference shall be addressed to the District Judge for the orders of Government.

(5) The Superintendent will serve the processes and execute the decrees referred to in these rules by the agency of his nazir, or of the circle Chiefs, or of the registered headmen, according to the rank and status of the person on whom the process is to be served or who is the judgment-debtor. The police may not be employed in such service or execution, except to convey the sealed orders to the agent selected for service or execution.

(6) The Superintendent will, in every case, report on the service of the process to the Civil Court concerned, and, as regards the execution of decrees, will keep up communication with such Court till the case is disposed of.

7. The rate of interest decreed by the Courts shall in no case exceed 12 per cent. per annum.

8. Deeds which must be registered under the rules following for the registration of deeds shall not be allowed to be filed in any suit unless they have been duly registered.

9. Suits shall be admitted only on registered bonds in all cases in which registration would be compulsory if the transactions out of which the claims arise were completed by the execution of bonds.

10. All orders passed in civil suits shall be appealable to the Commissioner, who may decide by whom the costs in any such appeal shall be paid.

LEGAL PRACTITIONERS AND AGENTS.

11. No legal practitioners shall be permitted to appear in any matter; and, in all cases where the Chiefs are personally concerned, they are, as far as possible, to be personally dealt with. 32. The registry book shall be inspected and countersigned by the Commissioner as often as may be found convenient.

33. In any case where registration is refused on the ground that the party who is said to have executed the deed denies his having done so, any party claiming under the deed may sue in the court of the Superintendent within three months of the order of refusal for a declaration of his right to have the deed registered. The registering officer shall be no party to such suit, and a copy of his order of refusal, properly attested, shall be *prima facie* proof that the reason of refusal to register was as therein described. The document in dispute shall be admissible as evidence in this suit, anything in these rules contained notwithstanding.

THE LAND.

TRANSFERS, PARTITIONS, AND SUB-LETTING.

34. All lands held for plough cultivation on lease from Government, under whatever rules they have been or may be granted, are subject to the condition that they cannot be sub-let or transferred, except on hereditary succession or with the consent of the Commissioner. No partitions can be made without the consent of the Commissioner. For a tenant to temporarily make over his holding to another person in the case of illness, incapacity, minority, absence on a journey or in the like exigency, is not to sub-let; but in no such case can the tenant recover from his substitute or trustee a higher rent than he has himself to pay.

CIRCLE DIVISIONS.

35. The Chittagong Hill Tracts comprise the following circles, the boundaries of which are well known and are not in dispute—

- (i) the several Government forest reserves;
- (ii) the Bohmong's circle, including the tract hitherto known as "Sungoo Subdivisional Khas Mahal;"
- (iii) the Chakma Chief's circle, including the tract hitherto known as "Sadar Subdivisional Khas Mahal;"
- (iv) the Mong Chief's circle.

TALUK DIVISIONS.

36. The 33 blocks which were formed in 1890 for the census of 1891 have been constituted permanent divisions and are called taluks. They lie as follows in the three circles :—

Bohmong's circle	...	...	...	...	18 blocks.
Chakma Chief's circle	...	...	...	...	9 "
Mong Chief's circle	...	...	...	...	6 "

MAUZAS.

37. The taluks are subdivided into mauzas. A mauza will ordinarily contain not less than one-and-a-half and not more than 20 square miles, including hill, wood, and

waste. Wherever there is plough cultivation a mauza will be formed, and its external boundaries laid down on the map. Wherever there is a permanent village, even without plough cultivation, a mauza will be similarly formed. The remaining mauzas will be formed as circumstances allow, and, till defined, will be known as the undefined mauzas.

ADMINISTRATION OF THE CIRCLES AND MAUZAS.

38. The three Chiefs—the Chakma Chief, the Bohmong, and the Mong Chief—are charged with the administration of the respective circles, and every person residing or cultivating within a circle is subject to the jurisdiction of its Chief, with the exception of Government officers and their families, traders and shop-keepers in bazars, and lessees of fisheries and *garjan kholas*. The existing headmen are in charge of the administration of the mauzas. Where they are wanted, headmen will be appointed by the Superintendent in consultation with the Chiefs and the inhabitants of the mauza. Every person, with the exceptions aforesaid, residing or cultivating within a mauza, will be subject to the authority of its headman.

COLLECTION OF THE RENTS.

39. The rents in each mauza will be paid to the headman. Every householder residing or cultivating within a mauza is liable to pay rent to the headman, and there may be no remission of that liability, unless sanctioned by the Superintendent. The headman will collect rents under the control and authority of the Circle Chiefs. The Chief and the headman will receive commission on the collections at such rates, respectively, as may from time to time be sanctioned by the Government.

ADMINISTRATIVE POWERS OF THE CHIEFS AND HEADMEN.

40. Except in the cases mentioned at the end of this rule, the Chiefs will regulate the affairs of their circles and the action of the headmen within them, with powers of fine, of enforcing restitution, and of imprisonment. Similarly, the headmen will regulate the internal affairs of their mauzas, with powers of fine up to Rs. 25, of enforcing restitution, and of detention till the Superintendent's orders are received. The Superintendent will have general revisional jurisdiction over the exercise of all these powers, and will continue to receive from the police information of the occurrence of cases.

Excepted cases referred to above.

- (1) Offences against the State, against Government servants, or against public justice.
- (2) Riots in which grievous hurt has been caused or deadly weapons have been used.
- (3) The following serious offences against the person, namely, murder, culpable homicide, voluntarily causing grievous hurt, wrongful confinement, rape, abduction, kidnapping, and unnatural offences.
- (4) Extortion, robbery, dakaity, lurking house-trespass, or house-breaking when the property taken exceeds Rs. 500 in value.
- (5) Forgery.
- (6) Offences under Chapter IV of the Chittagong Hill Tracts Regulation, 1900.
- (7) Any case or class of cases which the Commissioner may specify in this behalf.

THE RENT.

41. The rent is of four kinds, viz.,—

- (i) the existing joom rent and *begar*;
- (ii) the plough cultivation rent;
- (iii) ground-rent for premises used for other than agricultural purposes (shops, &c.);
- (iv) the grass and *garjan khola* rent.

JOOM RENT AND BEGAR.

42. (a) Every joomia, who has by custom to pay joom rent, must pay the joom rent for the Government to the Chief in whose circle he resides, to be collected by the headman within whose mauza he resides. If any such joomia jooms in a different circle or mauza from that in which he resides, he must, in the case of a different circle, pay the full joom-tax for that joom in addition to what he has to pay to his Circle Chief; and in the case of a different mauza in the same circle, he must pay half the full joom rent to the headman of that mauza, in addition to the full rent which he has to pay to his own headman. Plough cultivation gives no exemption from joom-tax to a man who jooms.
- (b) The joom book must show separately the jooms and joom-tax for each mauza.

THE PLOUGH RENT.

43. The gazetted officers of Government, the Chiefs, and the headmen may grant to any suitable person wishing to open plough cultivation the requisite authority to do so, specifying the terms.

The plough rent will be collected by the headman under the control and superintendence of the Chief, and it may be paid direct to the Government officers or through the Chief, as is found most convenient in different cases. The headman may assign to any suitable raiyat as much land as it is within the raiyat's power to cultivate himself. For the first three years it will be rent-free. Thereafter it will be assessed by the Superintendent, and the rate once fixed will not be altered for 10 years. The headman will frame a rent roll (*jamabandi*) for all plough cultivation in his mauza, which, when revised by the Superintendent, will form the basis of the demand. These rent-rolls will be examined, when possible, on the spot every year. Plough cultivation held under leases will, when not forfeited, be included in the rent-roll on the terms of the lease. When the lease conditions have been violated, the lease will be cancelled and the land settled with the actual cultivator as if no lease had been given.

NON-AGRICULTURAL RENTS AND BAZARS.

44. The rents for non-agricultural sites will be fixed by the Superintendent, and when so fixed will be entered on the rent-roll and distributed in the same way as the plough cultivation rent. But this rule does not apply to the cases of bazars, which may be separated by the Superintendent from the mauza and settled by him, and managed either through the headman or direct, as he sees fit.

GRASS AND GARJAN KHOLA RENTS.

45. The grass *kholas* will be settled by the Superintendent as hitherto, either yearly or for periods of not more than 10 years in any case, and when settled their rents will be realised separately and will not be added to the rent-roll or distributed like the rents for plough cultivation and non-agricultural sites.

SERVICE LANDS.

46. In every mauza 50 acres of the best arable land, in one block or in area or areas as nearly approaching 50 acres as may be practicable, will be demarcated, recorded, and set apart as the khas land of Government for the remuneration of the village officials, the headman, the patwari or karbari, if there is one, and the watchmen, if such are appointed, and will be assigned to such officers by the Superintendent to hold rent-free during their continuance in office. No headman may hold, as his remuneration, more than 25 acres of this land; but the rest of it, while unoccupied, may be placed in his charge under such temporary arrangements as the Superintendent sees fit to make. No officer shall have an indefeasible right to transfer such land, or to receive from the Government or from his successor any compensation for improvements made on the land; but the Commissioner may require a newly-appointed officer to pay to his predecessor reasonable compensation for unexhausted improvements.

KHAS MAUZAS OF CHIEFS.

47. With the sanction of the Commissioner, a Circle Chief may hold one or more mauzas in his circle as his khas mauza or mauzas, and in that case will be entitled to all the remuneration provided for the headman in addition to his remuneration as Chief, so long as he arranges properly for the performance of the duties of the headman and the mauza officers.

INVESTITURE OF THE CHIEFS AND APPOINTMENT AND DISMISSAL OF HEADMEN.

48. The investiture of the Chiefs is regulated by the Bengal Government. The headmen will be appointed by the Superintendent, in consultation with the Chiefs and the inhabitants of the mauzas, and may be dismissed by the Superintendent for misconduct or incompetence. This appointment is not hereditary; but a son, when competent, may be appointed to succeed his father.

MIGRATION AND MIGRATING DEFAULTERS AND ABSCONDERS.

49. Migration by cultivating raiyats from one circle to another, though not absolutely prohibited, is to be discouraged. No cultivating raiyat may so migrate till he has discharged all dues owed by him within the circle and mauza from which he wishes to migrate; and the Chiefs and the headmen are empowered to detain the persons and property of such intending defaulters till the orders of the Superintendent are received. An absconder will not be permitted to re-settle within the circle from which he has absconded till he discharges all the dues for which he was liable when he absconded.

LANDS REQUIRED FOR PUBLIC PURPOSES.

50. Arable land may not be settled by the headmen so as to interfere with roads or paths, or the public convenience or the requirements of Government, and any settlements made in contravention shall be summarily cancelled. When land, for which a settlement has been sanctioned, is required by Government, it will be resumed on payment of compensation.

RULES FOR THE APPOINTMENT OF SUB-INSPECTORS OF POLICE.

THE next divisional examination of candidates to fill vacancies in the rank of Sub-Inspector of Police will be held on the 18th and 19th June 1900 at the following centres:—at Calcutta (Senate House) for the Presidency, Rajshahi and Burdwan Divisions; at Bankipore for the Patna, Bhagalpur and Chota Nagpur Divisions; at Dacca for the Dacca and Chittagong Divisions; and at Cuttack for the Orissa Division. The following classes of candidates will be admissible to the examination:—

- (a) Persons who have passed the Entrance Examination of the Calcutta, Allahabad or Punjab University, provided they are not less than 21 nor more than 25 years of age on the 30th June.
- (b) Persons now serving as head-constables and writer-constables in the police who have obtained the permission of the District Magistrate to appear at the examination, provided that they are not more than 30 years of age, and are of not less than two years' standing in the Department. This permission will only be given to persons who satisfy the conditions laid down in Rule 2

2. No person will be deemed qualified who does not satisfy the following conditions :—

I.—That he has no disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for police duties, and that he is up to the physical standard prescribed by Government circular No. 4436J., dated the 7th December 1892.

NOTE.—“Stuttering or Stammering” is a constitutional defect, and represents a physical disqualification.

II.—That he is of good moral character.

III.—That he belongs to a respectable family.

IV.—That he produces a certificate of ability to ride signed by a District Officer.

3. Applications for permission to appear at the examination must be submitted, not later than one month before the date fixed, to the Magistrate of the district in which the candidate resides, stating the place at which he desires to appear for examination. Each application from class (a) candidates must be accompanied by a fee of Rs. 5. All candidates will be required to satisfy the conditions specified in Rule 2 above. The certificate of health should be signed either by the Civil Surgeon of the district in which the candidate ordinarily resides, or in Calcutta by one of the Professors of the Calcutta Medical College. Forms of application are available in the offices of District Superintendents of Police.

The Magistrate should require a personal identification of each candidate by some

known person, whose name should be recorded, and satisfy himself that the certificate* of respectability and moral character refers to the individual applying for permission to appear at the examination, and that these certificates are given by responsible and competent persons, whose opinion may be trusted. It is particularly important that

candidates be of reputable parentage and antecedents. The candidate should be sent to the District Superintendent for a certificate as to physical fitness. This certificate should contain the applicant's descriptive roll, thumb impression, signature and address for purposes of identification. The District Superintendent will then obtain a health certificate, the fee for which will in all cases be Rs. 4, from the Civil Surgeon, and after seeing that all the certificates are in order send the applicant with his certificates to the Magistrate, who will, after subjecting the candidate to an examination in riding and noting the fact, grant a written permission to appear at the examination. To ensure thorough enquiry regarding a candidate's antecedents, the District Superintendent should issue verification rolls in the form prescribed in the Bengal Police Code, and the candidate should be informed that his appointment will be contingent on enquiries proving satisfactory.

As these certificates form the verification rolls of candidates, they should be very carefully examined and enquiries made when necessary. A note should be taken of the names of candidates whose certificates do not cover the period immediately preceding the examination.

The above papers with the Treasury receipt for the examination fee, which should be paid into the Treasury, will be forwarded without delay by the Magistrate of the district in which the candidate resides to the Magistrate of the centre at which the candidate wishes to be examined.

Candidates who have been permitted to appear will attend before the Examination Committee on the day preceding the examination; the place and hour of attendance should be ascertained from the Magistrate of the centre at which the candidate will appear. The Examination Committee will then compare the descriptions, thumb impressions (duplicate impressions being taken for the purpose, if necessary), and signatures, and satisfy itself about the identity of the person appearing.

At the examination a candidate will be required to sign the papers in every subject, writing his father's name and his own address on them to avoid confusion arising out of a similarity of names.

After the result of the examination is known, the certificates of passed candidates will be forwarded to the Principal of the Police Training School, Bhagalpur, and will then be treated as verification rolls.

The certificates of unsuccessful candidates will be returned, if asked for, within two months, or destroyed at the end of that period.

4. The subjects of examination will be as follows:—

I.—Dictation, Letter-drafting, Précis-writing, and a short translation from Bengali, Uriya or Hindi into English. Europeans and Eurasians will be allowed to choose one out of these three languages to be examined in. No candidate failing to obtain half marks in this paper will be considered qualified for appointment.

II.—Paper on general knowledge. The questions will be set so as to test the general information and intelligence of candidates.

III.—Mathematics, including Euclid, Books I—IV, Arithmetic and Algebra, and account-keeping.

IV.—Law, including the Penal Code, the Criminal Procedure Code, and the Evidence Act.

N.B.—Class (b) candidates will be exempted from passing in Euclid and Algebra, alternative questions in Arithmetic being given.

5. The marks will be given on the following scale:—

1. Dictation and language	...	...	200
2. General knowledge	...	...	200
3. Mathematics	...	...	200
4. Law	...	...	200

6. The number of appointments which will be offered for competition at each centre will be notified later.

7. After the results of the examination have been ascertained, a list will be prepared of the candidates selected for appointment. Those who have not obtained half marks in dictation and language and one-third marks in the aggregate of the remaining papers may be struck out as ineligible for appointment. Of the remaining candidates, a list will then be composed as follows:—(a) one-half of the candidates who stand highest on the list in order of merit; (b) one-half of candidates selected from among those candidates who have obtained not less than one-third of the marks. At least two-thirds of the appointments will, if qualified candidates are available, be given to outsiders.

8. Natives of Bengal Proper will be eligible for appointments in all districts where Bengali is the vernacular of the district. Natives of Bihar will be eligible for appointments in districts where Hindi is the vernacular, and natives of Orissa for appointments in districts where Uriya is the vernacular. Selected candidates will be liable to be transferred to any district.

9. Selected candidates on appointment will undergo a 20 weeks' course of instruction at the Bhagalpur Police Training School. This course will include drill, elementary surveying, anthropometry, and instruction in prosecuting cases in Magistrates' Courts. At the end of the 20 weeks all probationers obtaining a certificate of proficiency will be posted to districts and receive appointments in due course as 5th grade Sub-Inspectors. During the period of probation candidates will receive Rs. 20 a month as salary; on being passed out of the Training School, they will receive Rs. 30 a month as salary. Candidates who fail to display due diligence during their period of probation will be liable to lose their appointments.

10. The position of selected candidates in the Range lists from which promotions are made will be determined by the places obtained by candidates at the final examination held at the conclusion of the Training School term.

11. Candidates resident in any of the districts of the Patna, Bhagalpur, and Chota Nagpur Divisions, who take up Hindi at this examination, will be considered to be natives of Bihar. Candidates competing at Cuttack who take up Uriya will be considered natives of Orissa.

12. Information as to the hour and place of examination can be obtained 15 days before the examination by applying to the District Magistrate of the 24-Parganas, Dacca, Patna, and Cuttack.

When any payment of money or receipt of consideration is acknowledged, the following clause should be added:—

Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other public money, and be paid into the nearest Treasury. In all cases remittances to the Treasury should be accompanied by the chalan book duly filled up in triplicate. One copy of each chalan will be returned to the registering officer by the Treasury Officer with his signature.

119. Before the 15th May of each year every sub-registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

120. Every Registrar shall submit to the Inspector-General, on or before the 1st June of each year, an indent in triplicate in the prescribed form for all register books and other registration forms, including the forms prescribed by the Accountant-General, which will be required for his own office and for those of the sub-registrars subordinate to him during twelve months from the 1st March to the 28th February following. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom the sub-registrar is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such sub-registrars should be submitted separately in triplicate with the Registrar's endorsement instead of being embodied in the Registrar's indent. A supply of new register books required to be opened on the 1st January of each year should be included in this annual indent. The indents will be forwarded by the Inspector-General to the Superintendent of Stationery, after being checked and countersigned, by the 1st September.

On the first office day after the 1st April in each year, the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

Yearly examination of candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday the 2nd and 3rd July 1900, at 10-30 A. M.

SUBJECTS.	Full marks.	Minimum pass marks.
* Writing (neatness, clearness, and rapidity)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (a) the whole	60	30
Book-keeping (b) mercantile	100	50
Total	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping" by Ball and Hamilton.

"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

AGRICULTURAL DEPARTMENT.

Session 1900-1901.

UPPER CLASS.

For admission to this class, an applicant must have one of the following qualifications:—

- (i) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

- (ii) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.
- (iii) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (ii) and (iii) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

Further particulars will be supplied on application to the Principal.

MARINE DEPARTMENT.

The 15th May 1900.

No. 94 Marine.—In exercise of the powers conferred on him by section 50A of the Inland Steam-vessels Act, VI of 1884, as amended by Act VII of 1899, and in supersession of this Department's Notification No. 51 Marine, dated 20th March 1899, the Lieutenant-Governor proposes to make the following rules for the protection of inland vessels from collision. These rules will be taken into consideration on the expiry of a month from the date of their publication in the *Calcutta Gazette*, and the Lieutenant-Governor will be glad to consider any suggestions or observations that may be made by any person concerning them within that period.

D. B. HORN,

Offg. Secy. to the Govt. of Bengal.

These rules are applicable to, and shall be followed by, all inland steam-vessels and all other vessels hereinafter specified on all inland waters in Bengal on which steam-vessels ply.

Preliminary.

For the purposes of these rules,—

- (a) a vessel shall be deemed to be “under way” when she is not at anchor or made fast to the shore or aground; and
- (b) the word “visible” when applied to lights shall mean visible on a dark night with clear atmosphere.

Rules concerning lights, &c.

Article 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2 (1).—All steam-vessels when under way shall carry—

- (a) in the forepart of the vessel above the awning roof a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 2 miles;
- (b) on the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 1 mile;

(c) on the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 1 mile.

(2) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

Article 3.—A steam-vessel, when towing other vessels which are lashed alongside, shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (1).

Article 4.—All vessels under oars or sails, when under way, shall not be obliged to carry the lights mentioned in Article 2 (1) (a), (b) and (c); but if they do not carry them, they shall have ready at hand a lantern with a white light which shall be exhibited in time to prevent a collision.

Article 5.—A vessel, which is being overtaken by another, shall show from her stern to such last-mentioned vessel a white light.

Article 6.—Every vessel, when at anchor, shall carry, where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform an unbroken light visible all round at a distance of at least one mile.

A vessel aground in or near a fairway shall carry the above light.

Sound-signals for Fog, etc.

Article 7.—All signals prescribed by this article for steam-vessels under way shall be given on the whistle or siren.

The words "prolonged blast" used in these rules shall mean a blast of from 4 to 6 seconds' duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and also with an efficient bell.

In fog, mist, or heavy rain-storms, whether by day or by night, the signals described in this article shall be used as follows, viz. :—

- (a) A steam-vessel having way upon her shall sound, at intervals of not more than two minutes, a prolonged blast.
- (b) A steam-vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than two minutes, two prolonged blasts, with an interval of about one second between them.
- (c) A steam-vessel, when at anchor, shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

One prolonged blast should be given to convey a warning in the following cases :—

- (a) When a steam-vessel approaches her destination.
- (b) To attract the attention of other vessels, especially native craft.
- (c) On approaching a bend in the channel.

Speed of Ships to be moderate in Fog, &c.

Article 8.—Every steam-vessel shall, in a fog, mist, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and condition.

A steam-vessel hearing, apparently forward of her beam, the fog-signal of any other vessel, the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Article 9.—When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course, or by night to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 10.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 11.—When a steam-vessel and sailing vessel are proceeding in such directions as involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article 12.—Where by any of those rules one of two vessels is to keep out of the way, the other shall keep her course and speed:

Provided that when in consequence of thick weather or other cause, the vessel which should be given way to finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision.

Article 13.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel, shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 14.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel, shall on approaching her, if necessary, slacken her speed or stop or reverse.

Article 15.—Notwithstanding anything contained in these rules, every steam-vessel overtaking any other shall keep out of the way of the overtaken vessel.

Every steam-vessel coming up with another vessel from any direction more than two points abaft her beam, i.e., in such a position with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 16.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 17.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

SOUND SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

Article 18.—The words "short blast" used in these rules shall mean a blast of about one second's duration.

Every steam-vessel under way shall, when in sight of any other vessel in taking any course authorised or required by these rules, indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

PROPER PRECAUTIONS TO BE TAKEN IN ALL CASES.

Article 19.—Nothing in these rules shall exonerate the owner, or master, or crew of any steam-vessel from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Article 20.—If two steam-vessels, with or without vessels in tow, meet in a narrow channel or rounding a point, or in a place where the presence of a third vessel makes it difficult to pass, the one going against the tide shall slacken her speed until the other has cleared the difficulty.

Article 21.—In rivers that are so narrow that they will not allow two steam-vessels meeting with flats in tow to pass each other without one of them making fast to the bank, the steamer going with the tide shall make fast to allow the one going against the stream to pass her.

Article 22.—No steam-vessel shall attempt to strive or race against another. When steam-vessels are proceeding in the same direction, but with unequal speed, the vessel which is steaming slowest shall, in the narrow reaches of a river, offer no obstruction whatever by crossing the channel or otherwise to the free passage of the faster vessel, and shall ease and, if necessary, stop the engines as soon as the faster vessel comes abreast in order to allow her to freely pass. The Master or Pilot of the faster vessel, if intending to pass, shall intimate such approach by a prolonged blast from his steam whistle. But no vessel will be justified in passing such vessel at any of the turning points or bends of a river, nor in a part of the channel so narrow that a third vessel could not with safety pass them.

Article 23.—Steam-vessels crossing from one side of the river to the other shall keep out of the way of vessels navigating up and down the river.

PENALTY FOR DISOBEDIENCE OF THE RULES.

Article 24.—Any person committing a breach of any of these rules shall, for each offence, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

12. Students of the first or second-year class who fail a second time, at the same stage, to gain promotion to the next higher class, will be removed from the College and will not be entitled to re-admission. Third-year students who fail a second time will be liable to removal from the College; but if they are specially recommended by the Principal, they may again be relegated to the third-year class, on payment of the fees laid down in Rule 16, and re-admitted to the 1st L.M.S. or 1st M.B. examination, and this concession may be allowed for any number of years at the discretion of the Principal.

13. Students of the fourth-year class will be required to pass a College test examination in Surgery, Medicine, Midwifery, and Medical Jurisprudence. Those who fail will be relegated to the fourth-year class for a further year. Exceptions to this latter rule may be made in special cases by Inspector-General of Civil Hospitals on the recommendation of the Principal.

These scholarships shall not be awarded to students who have gained the Durga Charan Laha scholarship of Rs. 30 per mensem or any other scholarship.

The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the place and hour of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in

the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment

on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.
